

# Addendum to EOI-A5230214

RFT Name: NSW Cyber Security Accelerator in Residence Program	
Addendum Number: 3	
Document Number: A5280795	Date: Friday, January 21, 2022

## Attention all respondents

### Addendum 3: Questions and answers raised and received on Thursday 20 January 2022

**Question 1: Could we clarify if it is compulsory to have an ABN to express our interest in the accelerator? As the EOI form has that as a mandatory field.**

The requirement regarding the ABN is explained in [the EOI document](#) on page 7, extracted below:

“Have a NSW based ABN (that is, an applicant’s ABN registration must show its main business location is in NSW), or an intention to register such an ABN if application is successful. In the case of joint applications (for example, an application from an international-based organisation in partnership with an Australian organisation), the lead applicant must have a NSW based ABN (or intention to register one).”

International applicants may select “An organisation with intention to obtain a NSW based ABN” in the form, see below:
