<b>Question 2: Can you clarify how the mandatory requirements of a “... minimum two years’ experience scaling and growing cyber security businesses...” would be assessed would sector-agnostic accelerator experience be considered?</b>
<p>In assessing against this requirement, in the absence of direct experience, the Panel will take into account transferable experience such as accelerator delivery experience focused on growing and scaling businesses in other sectors or sector-agnostic. We encourage respondents to elaborate how their experience will be transferable to support the goals and outcomes in the cyber security industry (on page 6 of the EOI document), including the context of specific market challenges that cyber businesses may face.</p>
